May 12, 2020

Dear Washington Township Families,

I hope this email finds you well! The Registration Department is hoping to release our new online registration platform this week! We are so excited to bring this new program to you. If you have a child that you will be registering for Kindergarten or will be taking part in the Pre-K 3 lottery, we kindly ask that you view this [video](#) to see what will be needed to complete the registration process. Families entering in the Pre-K 3 lottery will only need to submit an application through our Pre-Registration Portal (see the video for more information); however, if selected, will need to complete the entire registration process.

**Please note:** You will need your **parent PowerSchool Unified Classroom** account in order to begin and complete the registration process. Please confirm that you can access your account by logging in [here](#). If you have any difficulty logging in or are unclear about the status of your account, please contact [cdoud@wtps.org](mailto:cdoud@wtps.org) prior to beginning the registration process.

We also respectfully request that you upload all [required documentation](#) to your device prior to beginning the registration process to make your experience quick and efficient. Please see our [Registration Process](#) page or [Registration Support](#) page for further information.

Warm regards,

*Katherine T. Carey*

Director of Assessment, Data Technology, Registration, and School Community Outreach
