

Dear Parents,

It is my goal to keep every child's family current with all classroom and school happenings. In addition to frequent electronic and paper correspondence, I will also be utilizing a text reminder application called "Remind" that will allow me to periodically send out classroom updates and school reminders via text message. This will allow for me to get important (and sometimes last minute) information out to you as quickly as possible.

To participate in receiving text message alerts, please follow the instructions on the reverse side, or visit my website on the Whitman page. Rest assured, that you will not receive advertisement texts and your phone number will remain private. You may choose to opt out at anytime by visiting the Remind website and following their instructions.

It is my hope that this texting service will strengthen our lines of communication. Please do not hesitate to contact me should you have any questions.

Sincerely,

Miss Gregory

PLEASE NOTE:

Miss Gregory's Remind "class" is separate from the "class" Mr. Anderson has set up for all of Whitman Elementary School. Please consider signing up for both! 😊
