Mathematics Assessment - Performance By Grade: Grade 6
This table shows performance on the Mathematics section of the New Jersey Student Learning Assessment (NJSLA). The performance results in this table include all students that took the NJSLA assessment, which includes students that were enrolled less than half a year.
Students in sixth grade who were enrolled in an Algebra I course during the 2021-22 school year were required to take both the Algebra I and Grade 6 mathematics assessment. The results of the Grade 6 mathematics assessment are included in this data.

Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5 and percentages for 2020-21 and 2021-22 may show a range, depending on the overall school population size.

。 High schools with a four-year graduation rate of $67 \%$ or less
- Additional Targeted Support and Improvement: Low Performing Student Group (ATSI):
- Schools with one or more student group with a summative score that would be in the bottom $5 \%$ of Title I schools
- Comprehensive Support and Improvement (CSI): Chronically Low Performing:
- Titte I schools identified as Additional Targeted Support and Improvement; Low Performing Student Group (ATSI) that are identified for three or more consecutive years, i.e. ATSI schools that do not meet exit criteria.
- The NJDOE has not yet identified schools in this category as no ATSI schools have been in status for three or more years.

## Annually, NJDOE will identify schools in the following federal category

- Targeted Support and Improvement: Consistently Underperforming Student Group (TSI):
- Schools with one or more student groups that missed annual targets or standards for all indicators for two years in a row

For purposes of ESSA accountability, only schools and student groups with data for 20 or more students are included in calculations.
For more information about New Jersey's accountability system, how indicator and summative scores were calculated, how federal accountability status is determined, and additional data, see the NJDOE accountability page.
 2020-2021 school years. These waivers removed the requirements to

- Calculate indicator scores and summative scores for the 2019-2020 and 2020-2021 school years;
- Identify schools for comprehensive and targeted support and improvement during the 2020-2021 and 2021-2022 school years (based on 2019-2020 and 2020-2021 data, respectively).

As a result of these waivers, any school that was identified for comprehensive or targeted support and improvement during the 2019-20 school year will retain the same status for the 2021-22 and 2022-23 school years.
The NJDOE identified schools across four categories during the 2022-23 school year (based on 2021-22 data):

- CSI: Overall Low Performing:
- CSI: Low Graduation Rate;
- ATSl; and
- TSI.

For the TSI identification that occurred during the 2022-23 school year, status in meeting annual targets for the 2018-19 and 2021-22 school years were used since data was not available for two consecutive years.
Additionally, all schools that were previously identified were eligible to exit status at the end of the $2022-23$ school year if the NJDOE's Exit Criteria were met
 to exit status in fall 2023 if all exit criteria are met. Schools identified for TSI status will be eligible to exit annually if exit criteria are met.

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency: Percentage of students who met or exceeded expectations on statewide assessments (NJSLA or DLM)
ELA and Math Growth: For 2021-22 only, this data shows the Relative School Improvement Measure (RSIM), which is based on aggregate scale score improvement on the statewide assessments in ELA and mathematics (NJSLA), when comparing prior year performance to 2021-22 performance. Schools are assigned a percentile rank based on their improvement as compared to schools with similar prior year performance. This is only measured for grades $3-8$. > At the Middle Level, we look at the middle school years for our students as a journey where students are constantly encouraged to set and meet their academic and social/emotional goals. Highlights of this philosophy are: 1)Bolstering positive school climate through the continued implementation of the Building Better People program and peer leadership. 2) Implementing a more student-friendly middle school schedule that lengthens instructional time and reduces student passing time. 3) Adopting standard grading weights so that learning and grades become synonymous. 4) Teachers working to create assessments that transcend all levels of Webbs Depth of Knowledge beyond lower levels of recall and understanding. 5) Middle School teachers exploring the flipped classroom model, use of social media for educational purpose and the problem based learning model. 5) recruiting high-caliber professionals whose love of middle level education inspires them to utilize innovative teaching strategies and practices. We anticipate great results as the entire school community mobilizes our available resources to achieve our ambitious goals.

     all students in middle school and grades 9 and 10. The requirements for high school testing changed in 2021-22 so that students are only required to take the NJSLA once in high school. Therefore, 2021-22 data for Geometry and Algebra II may not be comparable to data from 2018-19.
