

# **TYLER:** **ART+ARCHITECTURE** **SUMMER 2022** **PRE-COLLEGE** **PROGRAMS**

**Connecting young artists with  
other creative thinkers.**

Tyler School of Art and Architecture's Pre-College Programs offer creatively driven high schoolers entering grades 9–12 the challenging and meaningful experience of learning with other young artists at a major University.

Held in state-of-the-art facilities, classes are taught by dedicated faculty and professional artists, providing students with an immersive studio experience in art, design, architecture and the built environment.

Beginning and advanced student artists will find classes that allow them to explore new media, progress technical skills, and create work suitable for their college admissions portfolio.

On-campus housing is available for all of our programs introducing students to Temple's metropolitan campus and Philadelphia's cultural highlights. Come to Tyler this summer for the college experience and leave with life-long friendships!
