A Guide for Parents and Educators

¿Uno? ¿Dos? ¿Tal vez tres?

- Uses vibrant photographs to make the meaning of Spanish words clear.
- Helps children actively engage with Spanish to process the language at a deeper level.

As you read

- Point to the pictures.
- Count the animals in Spanish with your child, pointing to each one.
- If you are using the audio, pause (click on the speaker in issue) to let your child count.
- Use phrases like these:
 - Hay unos caballos. ¿Cuántos ves? / There are some horses. How many do you see?
 - Veo muchos caballos. / I see a lot of horses.
 - Vamos a contarlos. / Let's count them.
 - Unos, dos, tres, cuatro, cinco, seis – Veo seis caballos. / One, two, three, four, five, six – I see six horses.

Language notes

- The words *¿cuántos?* and *¿cuántas?* mean “how many.” They are adjectives and agree with the noun that follows.
 - ¿Cuántos perros ves? / How many dogs do you see?
 - ¿Cuántas tortugas ves? / How many turtles do you see?
- The book uses the verb form *ves*. It is the verb *ver* (to see) in the *tú* form meaning “Do you see?” To answer, use the verb form *veo* (I see).
 - Veo tres vacas. / I see three cows.
 - Veo diez patos. / I see ten ducks.
