

July 21, 2020

Good afternoon, WTPS Families,

The *WTPS Reopening 2020-21 – Initial Survey* has been released. We urge all families to participate in this very short survey so that our administration can understand the community's instructional preferences and plan accordingly. The survey will be available until next Monday, July 27 at 3:00pm. Please be aware that we understand and recognize that you are making a decision without seeing the final reopening plan, as it is still being developed; therefore, we will launch a *WTPS Reopening 2020-21 – FINAL Survey* after the plan has been released. You are welcome to change your response at that time.

If you have requested assistance with your Unified Classroom Parent Account and have not received a response yet, please do not worry! We have additional staff working on resolving account issues/creating accounts. We ensured that we have plenty of time to resolve these account requests so that our families can participate in the survey. We kindly request that you send **one email** so that we can expedite support to all.

Please note that an up-to-date Unified Classroom Parent Account is required for all families in order to receive important district communications, check student grades and progress, etc. Please be sure that access to your Unified Classroom Parent Account is maintained.

Click [here](#) for directions to access your child(ren)'s survey. We respectfully request that you complete one survey per child (the survey takes about 60 seconds to complete). If you need assistance with accessing the survey, please submit your support request on our [WTPS Reopening 2020-21 Survey Support Form](#).

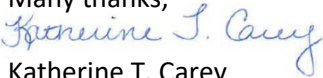

If you do not have access to your UC Parent Account, please contact Charlie Doud at cdoud@wtps.org with the following information:

- the purpose of your email – to access an existing account or to create an account
- your full name,
- the email used to set-up the account/the email you want to use to create the account, and
- the full names of your child(ren)

Again, **there will be a multi-day wait time, but we are here to help you!**

We thank you in advance for your participation in this survey. We truly appreciate your continued support and collaboration.

Many thanks,

Katherine T. Carey

Director of Assessment, Data Technology, Registration and School Community Outreach
