May 10, 2017

Dear Eileen Abbott Central Administration Community:

Washington Township School District contracted with South Jersey Water Test, LLC of Williamstown, N.J. to conduct the mandated State lead testing of water outlets of schools in our district. These tested outlets included water fountains and sinks throughout the district. Water samples were taken for the Eileen Abbott Central Administration Building on 3/22/17. The results for the Eileen Abbott Central Administration Building reflect none of the 5 samples taken exceeded the US Department of Environmental Protection Agency (EPA) action level of 15ug/l [ppb]. PPB stands for parts per billion.

The EPA's protocol with any outlet that tests lead at or above 15 ppb is to proceed with a flush sample, which we have planned and a follow up report will be shared when this action is completed.

The safety of our students, staff and community members is our utmost priority; therefore, we are responding in a proactive and conservative manner with focus beyond the mandates to ensure such. If you have any questions concerning this matter, please contact Mr. Schoenfeldt our Operations Manager at 856-589-9120.

Very truly yours,

A handwritten signature in black ink, appearing to read "Joseph N. Bollendorf". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Joseph N. Bollendorf
Superintendent of Schools
