Dear Washington Township **3rd Grade** Parents:

We would like to follow up and clarify any possible confusion regarding the Chromebook distribution message that was sent through ParentSquare on 8/14/2025.

The Technology Department is aware that iPads assigned to incoming 3rd grade students were collected at the end of the 2024–2025 school year. We also understand that in some cases, students may not have returned their iPad, or they may have been enrolled in the Extended School Year (ESY) program and still had the device in their possession.

When issuing new Chromebooks for the upcoming school year, our staff will verify that your child's previously assigned iPad has been returned. This step ensures that all district-issued devices are properly accounted for and that each student receives the correct equipment for their grade level.

We appreciate your cooperation in helping us keep our technology inventory accurate and ready for all students.

Thank you for your continued support.

WTPS Information Technology Department
