

Township Talks Tech is a hands-on FAMILY night where students and parents come together to talk about, try out, and learn about the digital issues and programs for Middle School.

**Date:** September 5<sup>th</sup>, 2018

**Time:** 6:30-8 pm

**Location:** OVMS Cafeteria and classrooms

**There are 3 rotating sessions followed by a prize giveaway!**

**Unified Classroom for PowerSchool:** Parents and students will be given a tour of their new PowerSchool dashboard with information on how to access grades, calendars, discussion boards, and reminders.

**Digital Textbooks:** Parents and students will be given a review of how to access their online digital textbooks for Math, Science, Social Studies and World Language. Parents will be able to practice signing in and locating materials with their child's assistance.

**Digital Citizenship:** Parents and students will experience presentations and discussions about the following topics: creating a positive digital footprint; being safe online; and the positives and pitfalls of social media. Presenters will share information and engage the families in discussion about the issues they see on a regular basis, while communicating the expectations of the Washington Township School District. The presentations will be available online.
