Assistant Principal

April 5, 2019

Dear Bulldog Families,

I appreciate your patience as we are trying to navigate the situations regarding the gyms. Yesterday, we finalized our PE schedule and contingency plans for inclement weather. We also were working to ensure and prioritize that students who have adaptive equipment had access to the equipment and consequently set up the necessary classrooms. Another priority was to refine the fields so they were accessible for the students to participate in a multitude of outside activities.

Today, we are working to give students their belongings for the lockers in the locker rooms. Again, with the information sent out by the superintendent and in consultation with the professional engineers working on this issue despite the indication that we have received indication that the readings are within acceptable limits, we as a district chose to allay any concerns and close the gyms. Since we're not letting students in or out of the gyms, we have to provide a measure for the students to obtain their belongings.

Today, we will be working diligently to get the student belongings, bag and label them and get them to your children so they can bring the items home. We have the locker roster and will be able decipher which locker has your child's clothes.

That being said, we have just under 600 students in our school and we want to handle the issue swiftly but also properly. It's important we do this in a systematic fashion to ensure accuracy of the items. We will work today to get as many students their belongings as possible, but please know this many take several days.

Thank you again for your continued patience,

Sincerely,

Mike D'Ostilio
