Unit Modifications for Special Population Students				
Advanced Learners	Greater percentage of core and supplemental standards/activities/performance tasks to be understood and completed independently, extra help provided only upon request.			
Struggling Learners	Small group/ partnered instruction, error correction, extra time to complete assignments, restate/repeat/rephrase, preview material/vocabulary, modification of material, IEP/504/IRT requirements, additional teacher assistance.			
English Language Learners	Modifications are required to be used in content-area classrooms where a student has limited English proficiency. These modifications are given based on the English proficiency of the student while maintaining the rigor of the content. Sheltered English Instruction strategies are utilized to provide students with limited English proficiency access to grade-level, mainstream content while promoting English proficiency development. NJDOE ELL Resources SEI Strategies for Visual Arts Can-Do Descriptions for Proficiency Levels Grades 9-12			

Learners with an IEP	Each special education student has in Individualized Educational Plan (IEP) that details the specific accommodations, modifications, services, and support needed to level the playing field. This will enable that student to access the curriculum to the greatest extent possible in the least restrictive environment. These include: • Variation of time: adapting the time allotted for learning, task completion, or testing • Variation of input: adapting the way instruction is delivered • Variation of output: adapting how a student can respond to instruction • Variation of size: adapting the number of items the student is expected to complete • Modifying the content, process or product Additional resources are outlined to facilitate appropriate behavior and increase student engagement. The most frequently used modifications and accommodations can be viewed here. Teachers are encouraged to use the Understanding by Design Learning Guidelines (UDL). These guidelines offer a set of concrete suggestions that can be applied to any discipline to ensure that all learners can access and participate in learning opportunities. The framework can be viewed here www.udlguidelines.cast.org
Learners with a 504	Refer to page four in the Parent and Educator Resource Guide to Section 504 to assist in the development of appropriate plans.

Interdisciplinary Connections

Instruction in the arts helps students with the development of motor skills, language skills, social skills, decision-making, risk-taking, and inventiveness. Working in the arts helps learners to develop creative problem-solving skills and teaching through the arts can present difficult concepts visually and creatively, making them easier to understand. Arts experiences boost critical thinking, teaching students to take the time to be more careful and thorough in how they observe the world as instruction in the arts connects students with their own culture as well as with the wider world. Integrating art with other disciplines provides challenges for learners at all levels and can reach students who might not otherwise be engaged in other subject areas. Instruction in the arts provides students with the skills to be lifelong learners.
