

Washington Township School District

The mission of the Washington Township Public Schools is to provide a safe, positive, and progressive educational environment that provides opportunity for all students to attain the knowledge and skills specified in the NJ Learning Standards at all grade levels, so as to ensure their full participation in an ever-changing world as responsible, self-directed and civic-minded citizens.

Course Title:	Student Assist	ance Co	ordinator (SAC)			
Grade Level(s):	10					
Duration:	Full Year:	N/A	Semester:	N/A	Marking Period:	Х
Course Description:	SAC lessons target substance abuse prevention/intervention strategies and related programs. Also includes Social Emotional Learning (SEL) five competencies: Self-Awareness, Self-Management, Responsible Decision Making, Relationship Skills, Social Awareness. District School Counseling Department Vision/Mission The District School Counseling Department's Vision/Mission is Building Better People by helping all students achieve school success and plan for their future.					
Grading Procedures:	N/A					
Primary Resources:	ASCA and ASAP	-NJ				

Washington Township Principles for Effective Teaching and Learning

- Implementing a standards-based curriculum
- Facilitating a learner-centered environment
- Using academic target language and providing comprehensible instruction
- Adapting and using age-appropriate authentic materials
- Providing performance-based assessment experiences
- Infusing 21st century skills for College and Career Readiness in a global society

Unit Title: Contemporary Health Issues

Unit Description: Focus on the more recent epidemics that are affecting them mental, emotional and social well-being of our youth. This unit will discuss topics such as Vaping, drug use/abuse, addiction and the proper/improper use of social media.

Unit Duration: Unit 4 in Grade 10 Health Curriculum

Desired Results

ASCA Standard(s): M 1. Belief in development of whole self, including a healthy balance of mental, social/emotional and physical well-being.

- B-LS 1. Demonstrate critical-thinking skills to make informed decisions
- B-SMS 1. Demonstrate ability to assume responsibility
- B-SMS 2. Demonstrate self-discipline and self-control
- B-SMS 7. Demonstrate effective coping skills when faced with a problem
- B-SS 0. Demonstrate social maturity and behaviors appropriate to the situation and environment.

Indicators: N/A

Understandings:

Students will understand that...

- Oxycodone, Opiates, Depressants/Stimulants are the three most commonly abused prescribed medications
- The difference between medication misuse and abuse is that misuse is when you do not follow the instructions on the label of the medication. Medication abuse is when you intentionally use the drug for reasons other than what they were prescribed for.
- The main reasons people use medications are to treat illness, cure a disease, manage a disease, and prevent a disease.
- Vaping is the electronic inhalation of a chemical nicotine substance (also can be used with oilbased THC/marijuana)
- There are many health risks of using electronic cigarettes including (but not limited to)
 - Addiction
 - Cancers
 - o Popcorn Lungs
 - Risk of Fire/Explosion.
- Cyber bullying is defined as a form of bullying that takes place strictly through electronic devices and social media avenues.
- Social media can affect someone's perception of themselves in relation to:
 - Body image
 - Self Esteem
 - Depression
 - Anxiety
 - Embarrassment
- Social media can be a great way to promote positivity such as:
 - o Advocating for a cure and/or cause

Essential Questions:

- What are the three most commonly abused prescription medications?
- What is the difference between medication "misuse" and medication "abuse"?
- What are the four main reasons people use medications?
- What are three negative consequences experienced by people who abuse drugs?
- What is "Vaping"?
- What are the health risks of using electronic cigarettes?
- What is cyber bullying?
- How does social media effect self-image?
- How can social media play a positive impact on someone's life?

- Public acts of kindness
- Students will be able to connect cyber bullying with the possibility of depression and/or anxiety within the school walls
- Students will be able to hypothesize the risk factors of vaping
- Students will be able to prove how substance abuse effects themselves, their families/friends, and community.
- Students will be able to list safe strategies for using medications as prescribed.

Assessment Evidence

Performance Tasks: None.

Other Evidence: Naviance survey and SAC observation.

Benchmarks: Ongoing review of the SEL Universal Screener.

Learning Plan

Learning Activities:

Deliver to all Grade 10 health students via in-person and supplement with **EverFi**, if appropriate.

Unit Modifications for Special Population Students		
Advanced Learners	 Encourage students to explore concepts in-depth and encourage independent studies or investigations. Research any drug related topic such as types of drugs, treatment, coping skills, resources from a selected list and provide the information found with their teacher and peers. 	
Struggling Learners	 Collaborate in small group learning. Pair into groups with a peer/buddy to discuss in details topics and relevance to Alcohol, Tobacco, Vaping & Drug Education. Students will then share what they discussed with the groups. Emphasize critical information. Allow options to draw pictures or write answers to written questions. 	
English Language Learners	Check often for understanding of vocabulary, review as needed. Emphasize critical information • Provide a handout of information via email that they can refer to on the highlights of today's lesson and critical content.	
Learners with an IEP	Each special education student has in Individualized Educational Plan (IEP) that details the specific accommodations, modifications, services, and support needed to	

level the playing field. This will enable that student to access the curriculum to the greatest extent possible in the least restrictive environment. These include: Variation of time: adapting the time allotted for learning, task completion, or Variation of input: adapting the way instruction is delivered Variation of output: adapting how a student can respond to instruction Variation of size: adapting the number of items the student is expected to complete Modifying the content, process or product Additional resources are outlined to facilitate appropriate behavior and increase student engagement. The most frequently used modifications and accommodations can be viewed here. Teachers are encouraged to use the Understanding by Design Learning Guidelines (UDL). These guidelines offer a set of concrete suggestions that can be applied to any discipline to ensure that all learners can access and participate in learning opportunities. The framework can be viewed here www.udlguidelines.cast.org Learners with a 504 Refer to page four in the Parent and Educator Guide to Section 504 to assist in the development of appropriate plans.

Interdisciplinary Connections

Indicators: The following NJSLS Comprehensive Health Standards highlights the topics in relevance to this unit such as drug use, dangers, and short- and long-term effects.

Standard 2.3 Drugs and Medicines: All students will acquire knowledge about alcohol, tobacco, other drugs, and medicines and apply these concepts to

support a healthy, active lifestyle.

Strand A. Medicines

Use of drugs in unsafe ways is dangerous and harmful.

- 2.3.2.B.1 Identify ways that drugs can be abused.
- 2.3.2.B.2 Explain effects of tobacco use on personal hygiene, health, and safety.
- 2.3.2.B.3 Explain why tobacco smoke is harmful to nonsmokers.
- 2.3.2.B.4 Identify products that contain alcohol.
- 2.3.2.B.5 List substances that should never be inhaled and explain why.

Use of drugs in unsafe ways is dangerous and harmful.

- 2.3.4.B.1 Explain why it is illegal to use or possess certain drugs/substances and the possible consequences.
- 2.3.4.B.2 Compare the short- and long-term physical effects of all types of tobacco use.
- 2.3.4.B.3 Identify specific environments where second-hand/passive smoke may impact the wellness of nonsmokers.
- 2.3.4.B.4 Summarize the short- and long-term physical and behavioral effects of alcohol use and abuse.
- 2.3.4.B.5 Identify the short- and long- term physical effects of inhaling certain substances.
- 2.1.12.C.1 Determine disease and health conditions that may occur during one's lifespan and identify prevention and treatment strategies
- 2.1.12.C.3 Determine the emotional, social, and financial impact of mental illness on the family, community, and State.
- 2.2.12.C.1 Analyze the impact of competition on personal character development
- 2.3.12.B.1 Compare and contrast the incidents and impact of commonly abused substances (tobacco, alcohol, marijuana, inhalants, steroids, other drugs) on individuals and communities in the US
- 2.3.12.B.4 Correlate the use of alcohol and other drugs in incidences of date rape, sexual assault, STI/STD and unintended pregnancy
- 2.3.12.B.5 Relate injected drug use to the incidence in diseases such as HIV/AIDS and Hepatitis
- 2.3.12.C.3 Analyze the social impact of substance abuse on the individual, family, and community

Integration of 21st Century Skills

Indicators: The following NJSLS will discuss ways for students to develop knowledge about the use of drugs and alcohol and ways to implement healthy coping skills via internet.

Standard 9.3 Career Awareness, Exploration, and Preparation

9.3.HU - CMH.3 Evaluate client motivation, strengths and weaknesses to develop a client treatment program

Lesson Plan Opioid Crisis

for					
SAC:	Grade 10				
Target Audience:	Grade 10 Health Students				
Mindsets & Behaviors: (limit of three)	M 1. Belief in development of whole self, including a healthy balance of mental, social/emotional and physical well-being. B-LS 1. Demonstrate critical-thinking skills to make informed decisions B-SMS 1. Demonstrate ability to assume responsibility B-SMS 2. Demonstrate self-discipline and self-control B-SMS 7. Demonstrate effective coping skills when faced with a problem B-SS 0. Demonstrate social maturity and behaviors appropriate to the situation and environment.			formed decisions y I ced with a problem	
Building Better People/SEL Competency	Self-Awareness, Self-Management, Responsible Decision Making				
Lesson	1	Of	1		

Learning Target(s)/Competency				
Students will:	Explain the effects of different drugs on the body and the dangers of different drugs.			
Students will:	Identify reasons to be drug-free and alternatives to drug use.			
Materials:				
Paper, pen, poster board, computers, magazines, dry erase board, dry erase markers, scissors, glue				
Evidence Base:				
 □ Best Practice □ Action Research X Research-Informed □ Evidence-Based 				
Procedure: Describe how you will:				

Introduce:	Today I want to share with you some information that can help you identify some risk and protective factors associated with drug use and also ways to seek help.			
Communicate Lesson Targets:	 Our targets for today's lesson are: Prevalence, Risk and Protective factors, and prevention of drug use and addictions. Ways to get help and seek treatment for drug use and addiction. 			
Teach Content:	We will first discuss and learn about the Opioid Crisis. Next, we will discuss the prevalence of adolescent opioid misuse. Risk and protective factors How to prevent Opioid Misuse How to get Help			
Practice Content:	Given a specific drug and will have to test their knowledge on the short- and long-term effects and treatment options and present this information to the class.			
Summarize:	Today we learned about the opioid crisis and its impact on teens and families. We also discussed risk and protective factors and always ways to seek help. Now we will take a survey in Naviance.			
Close:	My office is, if you need me, I am available			
Data Collection Plan	n – For multiple lessons in a unit, this section only need be completed once			
Participation Data:				
Anticipated number of students:	Grade 10			
Planned length of lesson(s):	40 minutes			
Mindsets & Behaviors Data:				
 Pre-test administered before first lesson Post-test administered after lesson (if standalone) or after last lesson of unit/group session Pre-/post-assessment attached 				
Outcome Data: (choose one)				
□ Achievement (describe):				
☐ Attendance (describe):				
X Discipline (describe): SAC will work collectively with building administration to analyze if there has been a decrease of disciplinary students issues regarding Alcohol, Tobacco, Vaping, and Drug related incidents.
