

# Washington Township School District

**The mission of the Washington Township Public Schools** is to provide a safe, positive, and progressive educational environment that provides opportunity for all students to attain the knowledge and skills specified in the NJ Learning Standards at all grade levels, so as to ensure their full participation in an ever-changing world as responsible, self-directed and civic-minded citizens.

	students to develop academic literacy and language skills. The texts include various genres, authentic literature, including multicultural literature, and non- fiction. Grammar and vocabulary instruction is integrated in each unit. Units begin with an essential question related to the theme, literature and extended learning activities to engage students, improve academic skills and increase multicultural awareness and appreciation. Each unit concludes with a writing project and "Workplace Workshop." The latter is included to assist students with career exploration. Edge units are designed to be completed in 8 week intervals. Nevertheless, schools teams should determine the most appropriate time frame for each unit to ensure teachers are able to incorporate the range of materials such as the close readings, Leveled Readers, Writing Project, Unit Project, and Workplace Workshop. Depth may be more appropriate than breadth of coverage.
Grading Procedures:	• English Learners (EL) have special language acquisition needs which must be addressed through core content instruction as well as instruction in the English as a Second Language (ESL) classroom. To facilitate academic success and development of positive self worth, English Learners shall be entitled to modifications in content and grading as outlined in the following guidelines and in coordination among the English Learner's ESL teacher and his regular classroom teacher(s).
	<ul> <li>Upon an EL's entry into the Washington Township Public Schools, the student will immediately be assessed by the appropriate ESL teacher, who will employ the World Class Instructional Design and Assessment – WIDA Model). Based on the student's performance on the WIDA Model), as well as the student's academic performance, reading level in English, NJ State Assessment and/or standardized test results in English, teacher recommendation, and interview with one of our English as a Second Language (ESL) teachers, the student's eligibility to receive instruction in our district's English Language Learner (ELL) program will be determined. The goal of the ESL program is to help children learn English and meet age-appropriate academic standards.</li> </ul>
	• Based on the student's WIDA Model score as well as his/her previous school record, length of time in the United States, and family dynamics, the ESL teacher, the school principal (or his designee) and, if applicable, the student's guidance counselor, will confer with the student's parent(s) to determine the appropriate grade placement and course schedule. In regard to grade placement, it is also imperative that the calendar year of the EL entrant's previous school be considered, since not all school's follow a September to June calendar. In addition, within the first month of arrival or school year, the content teachers, ESL teacher, guidance counselor and CST member (if applicable) will meet to review the education plan of the EL and the WIDA proficiency levels along with the Can Do descriptors and necessary modifications.
	• Based on the student's performance on the WIDA Model, the ESL teacher will develop a list of instructional accommodations for implementation by the EL's regular education teacher(s). The ESL teacher will communicate this information in writing and also through an initial meeting with the EL's regular education teacher(s) and guidance counselor.
	<ul> <li>Recognizing that English Learners are continually developing English proficiency, ESL students may be considered for enrichment if their academic performance indicates successful participation.</li> <li>So that we may best address the individual needs of each English</li> </ul>
	Learner, the practices outlined above are intentionally flexible, with the ultimate

goals being facilitation of the English Learner's positive self worth and promotion of English language development as well as understanding of specific subject matter content.

• It is very likely that a student may need modified grading for CORE subjects, such as language arts, math, science, technology education, health or social studies, but not for others, such as art, music or physical education depending on the required reading and writing activities as outlined by the NJSLS.

• At least once per marking period, the EL's regular education teacher(s) and his ESL teacher shall communicate in writing (and as much as practicable, in person) in regard to the student's progress toward English language proficiency and understanding of core subject content. Based on those assessments, the teachers may alter the modifications applicable to the specific EL student.

• Along with the issuance of a traditional school-issued report card, each EL and his parent(s) shall have complete access to ESL grades on Powerschool to view student progress in the ESL classroom.

• It is noted that Kindergarteners receive a standard- based report card. However, please keep in mind these practices below as you rate students along the proficiency continuum as these are practices at the upper levels:

• If an EL is capable of earning a "C" or better on our traditional grading scales with prescribed ESL modifications, then the earned letter grade(s) should be issued to the EL. Otherwise, an EL should be issued a passing grade of "P" (instead of a "D") if he demonstrates basic understanding of the subject matter, even if his ability to express his understanding in clear and accurate English is limited. If the student's limited English proficiency prevents even basic understanding of subject matter, then the student shall be issued a grade of "LB," representing "language barrier."

• While a grade of "LB" (Language barrier) may be issued during any quarter, it may only be used as a final grade at the elementary and middle school levels.

• Whenever an EL's regular education classroom progress is congruent with his level of English language proficiency, he may not be issued a failing grade. In other words, if an EL is sincerely trying his best, then he should not be issued a failing grade.

• At the same time, an EL who intentionally puts forth no effort may be issued a grade of "F," but only after consultation among the student's ESL and regular education teacher(s) as well as his parent, the school principal (or his designee) and, if applicable the student's guidance counselor. Documentation must be provided that lack of language proficiency is not the cause of the EL's academic failure. In effect, an EL should not be issued a failing grade solely on the basis of lack of language proficiency.

• In general, an EL's promotion from one grade to the next shall be contingent upon the same promotion guidelines set for by the Board of Education for promotion of regular education students. However, the EL's building principal, ESL teacher, and guidance counselor, if applicable, will also confer with the

	student's parent(s) to review and consider the student's academic progress and level of language acquisition over the course of the school year.

## Washington Township Principles for Effective Teaching and Learning

- Implementing a standards-based curriculum
- Facilitating a learner-centered environment
- Using academic target language and providing comprehensible instruction
- Adapting and using age-appropriate authentic materials
- Providing performance-based assessment experiences
- Infusing 21st century skills for College and Career Readiness in a global society

Designed by:	Liani Dillard

#### Unit 1 Title: Personal Identity- Reading Personal Narratives/ Writing Narrative pieces Unit Description:

This unit seeks to emphasize the importance of the ability to tell one's own story and hear and honor the stories of others. The students will recognize the vast similarities across societies and cultures and the importance they hold in validating shared experiences. Students will also hear the personal stories of individuals, understanding the defining and transformative effect their own experiences have had on them and their worldview. The students will explore the mode of narrative writing. The students will write their own narrative, choosing to focus on a large or small moment in their own lives or continuing the narrative of an individual read in class. In addition, students will learn, recall, and apply new vocabulary using various activities to practice and reinforce skills and strategies. Throughout this unit, independent reading will be encouraged to allow students to build reading stamina, practice grade level skills and strategies, and develop interest and enthusiasm for reading.

#### Unit Duration: 45 days (First Marking Period)

**Desired Results**

words	
Narrative writing	

#### Learning/Instructional Strategies

Using this curriculum guide as a foundation, the ESL teacher, in the role of decision maker, selects the specific method or technique best suited to reach a particular objective. The teacher uses an eclectic approach, drawing upon his or her experience and knowledge of teaching and learning while responding to the English proficiency level of each student and his/her immediate social and academic needs. ESL teachers are sensitive to the differences between what the students are taught and what the students bring to class, so lessons and teaching methods are student-centered, based on each student's individual English language needs. Instruction of ELs may include any or all of the following:

#### Sheltered English Instruction (SEI):

Sheltered English Instruction (SEI) is a planning process that helps teachers provide English learners with grade-level content instruction by adapting lesson activities to the English proficiency level of individual students" (NJDOE). Through the use of SEI, English learners can be integrated into classrooms with their English-speaking peers and work toward meeting expectations outlined in the New Jersey Student Learning Standards and Next Generation Science Standards.

SEI promotes the use of clear, direct, and easy-to-understand language and a wide range of scaffolding strategies to communicate understanding of content in mathematics, science, social studies, and language arts to students. SEI activities require teachers to analyze lesson content to determine the academic language that must be taught to make content accessible for ELs. SEI methods require teachers to build background knowledge, connect new content to students' prior knowledge, provide time for interaction and collaboration among students, integrate explicit language and vocabulary instruction relevant to content learning, and emphasize the use of many types of instructional strategies including cooperative learning, differentiated instruction, and thematic study.

#### The GO TO Strategies Matrix:

http://newsmanager.commpartners.com/tesolc/downloads/features/2017/Ancillary%20Docs/2017-01\_GO%20TO%20Matrix.pdf

	Level 1 Entering	Level 2 Emerging	Level 3 Developing	Level 4 Expanding	Level 5 Bridging
Listening	Use physical gestures to accompany oral directives.     Modify *Teacher Talk.     Label visuals and objects with target vocabulary.     Introduce Cognates to aid comprehension.     Ask for Signal Responses to check comprehension.	Give two step Contextualized directions.     Restate/rephrase and use *Patterned Oral Language routines.     Model Academic Language and vocabulary.     Ask for Total Physical Responses from students.	Provide graphics or objects to sequence steps in a process.     Check Comprehension of all students frequently.     Use *Wait Time.     Provide Anticipation Guides for previewing content reading.	<ul> <li>Compare/contrast relationships from auditory information using a Venn Diagram.</li> <li>Require students to restate and rephrase from auditory input as in *Paraphrase Passport.</li> </ul>	Outline lectures on the SmartBoard.     Use *Video Observation Guides.     Confirm students' prior knowledge of content topics.     Extend content vocabular with multiple examples and non-examples.
Speaking	Provide wall charts with illustrated academic vocabulary.     Ask simple WH (who, what, when, where), yes-no or either-or questions.     Elicit *Choral Responses.     Encourage participation in group chants, poems, and songs.	Use 10-2 structures.     Assign roles in group work.     Use Clock Buddies.     Use Numbered Heads Together.     Use *Think-Pair-Share- Squared.     Develop Key Sentence Frames for pair interactions.	Provide Graphic Organizers or notes to scaffold oral retelling.     Prompt for academic language output.     Use Think-Pair-Share.     Repeat and Expand student responses in a *Collaborative Dialogue.	Require full sentence responses by asking open ended questions.     Use Varied Presentation Formats such as role plays.     * Scaffold oral reports with note cards and provide time for prior practice.     Use Reader's Theatre to scaffold oral language growth.	Structure debates requiring various points of view with graphic organizers and/or outlines.     Require the use of academic language.     Require oral reporting fo summarizing group work.     Include oral presentation in the content classroom.
Reading	Preview the text content with pictures, demos, charts, or experiences.     Pair students to read one text together.     Preview text with a Picture Walk.     Use Choral Reading.     Use <b>Choral Reading</b> .     Use <b>Choral Reading</b> .	<ul> <li>Use Card Sorts.</li> <li>Use K-W-L charts before reading.</li> <li>Use the Language Experience Approach.</li> <li>Provide a list of important concepts on a graphic organizer.</li> <li>Use *Shared Reading and/or simplify the text.</li> </ul>	Provide a content vocabulary Word Bank with non-linguistic representations.     Teach skimming for specific information.     Use Teach the Text Backwards.     Use 4 to 1 for main ideas from text.     Use *Guided Reading.	Model the creation of a Story Map from a narrative.     Provide Question Answer Relationship questions for student pairs to research.     Use Directed Reading Thinking Activity.     Use Cornell Notes.     Use "Jigsaw Reading to scaffold independent reading.	Require computer and library research.     Ask students to analyze text structure and select an appropriate Graphic Organizer for summarizing Use "Reciprocal Teaching to seaffold independent reading.
Writing	Require students to label visuals and/or create language balloons.     Require vocabulary notebooks with L1 translations or non-linguistic representations.     Provide *Key Sentence Frames with word and picture banks.	Teach note taking on a Graphic Organizer.     Use a Roving Chart in small group work.     Use Interactive Journals.     Use *Think-Write-Pair-Share.     Provide Cloze sentences with a Word Bank.	Require Learning Logs for summaries of learning.     Use Text to Graphics and Back Again.     Teach Signal Words (comparison, chronology, cause -effect, and listing) for academic writing.     Provide *Cloze paragraphs with a *Word Bank.	Provide Rubrics and exemplars to scaffold writing assignments.     Teach and utilize the writing process.     Provide an outline for the standard five-paragraph essay.     Provide *Report Frames for independent, structured, content writing.	Require academic writing and the use of target academ vocabulary.     *Teach the process of writing a research paper.     Address students' culture in differing genres of writing Hold frequent writing conferences with teacher and peers.

\*Starred strategies are described in the summary document on the following page, "The Go To Strategies Matrix: Scaffolding Across Language Proficiency Levels."

Levine, L. N., Lukens, L. & Smallwood, B. A., (2013). The GO TO strategies: Scaffolding options for teachers of English language learners, K-12. For Project EXCELL, a partnership between the University of Missouri-Kansas City and North Kansas City Schools, funded by the US Department of Education, PR Number T195N070316.

0	L1 (home or first language)	0	Sentence starters / sentence frames / discussion frames / formulaic expressions
0	Word to Word Dictionary / Picture	0	Cloze paragraphs / sentences
	Dictionary	0	Talk moves (structured academic conversations: re-voicing/clarifying, restating,
0	Jigsaw activities		reasoning, adding on, wait time)
		0	Wait time

#### Cooperative Learning:

Cooperative learning activities give students opportunities to work in groups and share their knowledge. These learning activities are characterized by three components: positive interdependence, individual accountability, and face-to-face interaction. Cooperative learning helps ELs develop social and oral language skills. It motivates ELs to learn English, which helps them become an integral part of the class community, and it has the ability to help students become more confident in social situations.

#### **Differentiated Instruction:**

The ESL curriculum strives to implement differentiated instruction in order to meet the WIDA standards. Students must have access to a variety of scaffolded and leveled materials that enable them to learn the same topics being taught in the mainstream classroom. Texts, computer resources and assessments are modified as needed.

#### Social Emotional Learning:

Social and emotional learning (SEL) refers to the process by which children and adults acquire and effectively apply the knowledge, attitudes and skills necessary to do the following: understand and manage emotions; set and achieve positive goals; feel and show empathy for others; and make responsible decisions. ESL teachers include SEL practices in everyday learning to include the state competencies and sub-competencies. Students, through SEL, are able to take personal ownership and responsibility for their learning and decisions.

#### Thematic Approach:

"Adopted by the New Jersey State Board of Education in August 2017

ESL teachers include topics or themes in their lesson planning that incorporate the WIDA standards. Topic or theme-related language and concepts may be spiraled over a period of time, ensuring their conceptualization. Students are continually expected to communicate in all four language domains: listening, speaking, reading and writing.

#### Reader's Workshop for ELs:

Reader's workshop blends whole group instruction, small needs-based groups, and individual conferring to guide students through the application of basic reading comprehension strategies. Teachers of ELs are familiar with the reader's and writer's workshop. Although setting up a reader's workshop classroom in the ESL classroom may not be feasible, ESL teachers can adapt some of the best practices present within the workshop framework.

These strategies are as follows:

- Determining what is Important Identifying themes and diminishing focus on less important ideas or pieces of information (i.e., ten minute mini-lesson focused on one specific topic or strategy).
- Immediate Application Provide time for students to independently apply the skill of focus from the mini-lesson, at which time the ESL teacher can float among students and provide guidance as needed.
- Small Group Instruction While students work independently, the teacher can work with a small group to re-teach a skill, pre-teach something, reinforce a previous concept, or accelerate learning for students ready to move ahead.
- Immediate Targeted Feedback As students work independently or in small groups, the ESL teacher can provide praise, redirection, or feedback immediately.

	Unit 1
	Grade 9

	https://www.state.nj.us/education/modelcurriculum/ela/ellscaffolding/910u1.p df
Level 2 Beginning	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 3 Developing	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 4 Expanding	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 5 Bridging	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 6 Reaching	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.

Assessment/Performance Tasks				
Performance Tasks: The students will be able to: Develop listening and speaking skills. Critically read and analyze narrative text. Identify and analyze narrative, thematic and characterization elements in text. Make cultural and interdisciplinary thematic connections linguistically. Engage in collaborative peer discussions for the generation and exchange of ideas. Generate expository essays, specifically character portraits and cause and effect essays Develop and strengthen writing skills through process. Generate and publish text using technology. Develop research skills, evaluate sources both print and digital, and present findings utilizing technology. Identify and employ effective language adhering to standard convention usage. Develop, enhance, recognize and employ vocabulary in critical reading and writing.	Other Evidence Independent Reading: annotations and journal Grammar activities Phonics assessment Vocabulary acquisition and reading comprehension Writing: poem (expressive writing) Graphic organizers Close reading, annotating, and notetaking Grammar activities Phonics assessment Vocabulary acquisition and reading comprehension Writing: Personal Narrative			

Benchmarks and assessments:

### Entry Criteria for the ESL Program

Eligibility for ESL program is based on the results of the following measures:

- WIDA Measure of Developing English Language (WIDA MODEL) assessments are approved by the New Jersey Department of Education and can be administered to screen students who enter the district whose first language is other than English. Students whose score falls below the competent and fluent levels will be placed in an ESL class.
- ACCESS 2.0 test results from the previous school year
- Content area teacher recommendations
- Content area performance and grades
- ESL teacher recommendations
- Participation in an ESL program in another school district
- Arrival to the United States from a country where Standard English is not the first language Monitor Criteria for the ESL Program Students who meet the criteria for exit from the ESL program are placed on a monitor status for a minimum of two years and offered support with content area classes.
- ESL teachers work with content area teachers to ensure a successful transition from the ESL program. In the event that a teacher wants to recommend re-entry into ESL, that request must be submitted to the district
- ESL supervisor for review. Re-entry into ESL can only be granted by the county superintendent.

### Exit Criteria for the ESL Program

- Students enrolled in the ESL Program will be tested annually with the ACCESS 2.0 language proficiency assessment to determine their level of English language proficiency.
- The district goal, as determined by the State, is for all students to show growth of at least one proficiency level.
- Students who score at or above 4.5 are evaluated for exit from the ESL program.
- Furthermore, the WIDA MODEL assessments are used as one criterion upon which a student's exit from the program is based.
- Other criteria are student report cards, scores on the district provided assessments, and teacher recommendation.

#### State Required Assessment

• ESL State Assessment: ACCESS- ACCESS for ELLs scores have many potential uses, from determining student placement to guiding the creation of new curricula. Test scores work best as a way to aid decision-making, in cases such as:

- Establishing when multilingual learners have attained English language proficiency according to state criteria
- Making decisions about program entry and exit
- Informing classroom instruction and assessment
- Which domains teachers could focus on
- What the WIDA ELD Standards say about students' current proficiency levels
- How teachers can scaffold using the next level up
- Monitoring student progress by comparing current scores to previous scores

#### **District Required Assessments**

- STAR
- IXL
- SUCCESS
- ELA benchmark

#### Interdisciplinary Connections

#### **Mathematics**

Numerical data such as graphs and sequential information provide an opportunity for crosscurricular study.

WIDA English Language Proficiency Standard 3- English language learners communicate information, ideas and concepts for academic success in the content area of Mathematics

#### Social Studies

Many of the books within the classroom collection are historical fiction novels, which provide for the opportunity of cross-curricular study.

WIDA English Language Proficiency Standard 5 – English language learners communicate information, ideas and concepts for academic success in the content area of Social Studies Social Studies NJSLS: <u>https://www.nj.gov/education/cccs/2020/2020%20NJSLS-SS.pdf</u> Science NJSLS: <u>https://www.nj.gov/education/cccs/2020/NJSLS-Science.pdf</u>

#### <u>Science</u>

Informational reading connected to science content will be made available to help students build background knowledge in specific units (e.g., Survival)

WIDA English Language Proficiency Standard 4 – English language learners communicate information, ideas and concepts for academic success in the content area of Science

#### English Language Arts

This curriculum is designed to supplement and work in partnership with the ELA curriculum. WIDA English Language Proficiency Standard 2 – English language learners communicate information, ideas and concepts necessary for academic success in the content area of language arts. See link: <u>https://www.nj.gov/education/cccs/instructionalunits/ela/</u> Student assignment in ESL-English classes will be based upon the number of years of high school English or ESL completed, so the English Language Proficiency levels of students in any class may vary.

	f Study are organized by theme, so the texts read within each theme can be differentiated
by reading	
Activities fo	on in materials, assignments, and assessments can be provided (e.g., 99 Ideas and r Teaching English Learners with the SIOP Model)
Advanced	Gifted and Talented EL Guidance link.
Learners	https://www.state.nj.us/education/bilingual/policy/GiftedandTalentedEnglishLanguageLearners.pdf
Struggling	Tiered Systems of Support link:
Learners	https://www.state.nj.us/education/njtss/
English Language Learners	This entire curriculum is designed for ELs. Also, review FABRIC <u>https://www.nj.gov/education/bilingual/pd/fabric/fabric.pdf</u>
	English Language Learner Toolkit. https://ncela.ed.gov/files/english_learner_toolkit/OELA_2017_ELsToolkit_508C.pdf
	The central mentor texts chosen were based on the following criteria: Lexile. Even though some of the texts do not have a Lexile level, the teacher will read the texts aloud, and scaffold by defining vocabulary words, paraphrasing and simplifying complex sentences and using all visuals for support. They represent both literature and informational texts on the same topic aligned to the standards assessed in Unit 1.
Special	ELLs with Special and diverse needs link:
Needs Learners	https://www.state.nj.us/education/bilingual/resources/ELLSpecialNeed.htm
Learners with an IEP	<ul> <li>Each special education student has in Individualized Educational Plan (IEP) that details the specific accommodations, modifications, services, and support needed to level the playing field. This will enable that student to access the curriculum to the greatest extent possible in the least restrictive environment. These include: <ul> <li>Variation of time: adapting the time allotted for learning, task completion, or testing</li> <li>Variation of input: adapting the way instruction is delivered</li> <li>Variation of output: adapting how a student can respond to instruction</li> <li>Variation of size: adapting the number of items the student is expected to complete</li> <li>Modifying the content, process or product</li> </ul> </li> </ul>
	Additional resources are outlined to facilitate appropriate behavior and increase student engagement. The most frequently used modifications and accommodations can be viewed <u>here</u> . Teachers are encouraged to use the Understanding by Design Learning Guidelines (UDL). These guidelines offer a set of concrete suggestions that can be applied to any discipline to ensure that all learners can access and participate in learning opportunities. The framework can be viewed here <u>www.udlguidelines.cast.org</u>
Learners with a 504	Refer to page four in the <u>Parent and Educator Resource Guide to Section 504</u> to assist in the development of appropriate plans.

Career Readiness, Life Literacies, and Key Skills Rapid advancements in technology and subsequent changes in the economy have created opportunities for individuals to compete and connect on a global scale. In this increasingly diverse and complex world, the successful entrepreneur or employee must not only possess the requisite education for specific industry pathways but also employability skills necessary to collaborate with others and manage resources effectively in order to establish and maintain stability and independence. This document outlines concepts and skills necessary for New Jersey's students to thrive in an ever-changing world. Intended for integration throughout all K–12 academic and technical content areas, the New Jersey Student Learning Standards- Career Readiness, Life Literacies, and Key Skills (NJSLS-CLKS) provides the framework for students to learn the concepts, skills, and practices essential to the successful navigation of career exploration and preparation, personal finances and digital literacy.

### Mission

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

### Vision

An education in career readiness, life literacies, and key skills fosters a population that: • Continually self-reflects and seeks to improve the essential life and career practices that lead to success; • Uses effective communication and collaboration skills and resources to interact with a global society; • Possesses financial literacy and responsibility at home and in the broader community; • Plans, executes, and alters career goals in response to changing societal and economic conditions; and • Seeks to attain skill and content mastery to achieve success in a chosen career path.

### Indicators:

https://www.state.nj.us/education/aps/cccs/career/curriculum.htm

<u>Review the following standards for expectations by grade 12:</u> https://www.nj.gov/education/cccs/2020/2020%20NJSLS-CLKS.pdf

Computers or iPads can be integral in providing ELs with valuable language experiences as they learn a new language. ESL teachers should offer English learners a language-rich environment in which students are constantly engaged in language activities. The computer or iPad can act as a tool to increase verbal exchanges, develop content area vocabulary and improve reading and writing skills. Students should be exposed to language learning software and websites, which may be utilized at home and in school. Interactive whiteboards can also play a major part of hands-on interactive ESL instruction. Interactive whiteboards provide students with visual support that all ESL students need. In addition, they provide a way for teachers to anonymously survey students' understanding of the material being taught.

### Technology Connections

- E-textbooks (Classlink)
- Collections (Houghton Mifflin Harcourt)
- Edge (National Geographic Cengage Learning, 2014)
- Microsoft Office, One Note, Schoology, FlipGrid and One Drive will be used to assign tasks, submit work, and provide feedback
- Microsoft Apps will be used to promote collaboration through technology
- Websites
- Online resources will be used to supplement curricular materials.
- Ted Talks will be provided when relevant to curriculum content.
- Immersive Reader will be used to help students build academic vocabulary knowledge.

Create an All about me multimedia project

#### Unit 2 Title:

# Empathy and Understanding- Reading Information Text and Writing informative/explanatory pieces

#### **Unit Description:**

This unit will continue to encourage students to understand and appreciate the experiences of others and the extent to which those experiences have shaped and defined them in their home countries as well as here in America, as well as explore the potential damage to individuals and society when those perspectives are ignored. Students will also choose individual areas of research and create a research based informational text which adds context or a deeper understanding of one of the core or supplemental texts covered. In addition, students will learn, recall, and apply new vocabulary using various activities to practice and reinforce skills and strategies. Throughout this unit, independent reading will be encouraged to allow students to build reading stamina, practice grade level skills and strategies, and develop interest and enthusiasm for reading.

#### Unit Duration: 45 days (Second Marking Period)

#### Learning/Instructional Strategies

Using this curriculum guide as a foundation, the ESL teacher, in the role of decision maker, selects the specific method or technique best suited to reach a particular objective. The teacher uses an eclectic approach, drawing upon his or her experience and knowledge of teaching and learning while responding to the English proficiency level of each student and his/her immediate social and academic needs. ESL teachers are sensitive to the differences between what the students are taught and what the students bring to class, so lessons and teaching methods are student-centered, based on each student's individual English language needs. Instruction of ELs may include any or all of the following:

#### Sheltered English Instruction (SEI):

Sheltered English Instruction (SEI) is a planning process that helps teachers provide English learners with grade-level content instruction by adapting lesson activities to the English proficiency level of individual students" (NJDOE). Through the use of SEI, English learners can be integrated into classrooms with their English-speaking peers and work toward meeting expectations outlined in the New Jersey Student Learning Standards and Next Generation Science Standards.

SEI promotes the use of clear, direct, and easy-to-understand language and a wide range of scaffolding strategies to communicate understanding of content in mathematics, science, social studies, and language arts to students. SEI activities require teachers to analyze lesson content to determine the academic language that must be taught to make content accessible for ELs. SEI methods require teachers to build background knowledge, connect new content to students' prior knowledge, provide time for interaction and collaboration among students, integrate explicit language and vocabulary instruction relevant to content learning, and emphasize the use of many types of instructional strategies including cooperative learning, differentiated instruction, and thematic study.

#### Cooperative Learning:

Cooperative learning activities give students opportunities to work in groups and share their knowledge. These learning activities are characterized by three components: positive interdependence, individual accountability, and face-to-face interaction. Cooperative learning helps ELs develop social and oral language skills. It motivates ELs to learn English, which helps them become an integral part of the class community, and it has the ability to help students become more confident in social situations.

#### **Differentiated Instruction:**

The ESL curriculum strives to implement differentiated instruction in order to meet the WIDA standards. Students must have access to a variety of scaffolded and leveled materials that enable them to learn the same topics being taught in the mainstream classroom. Texts, computer resources and assessments are modified as needed.

#### Social Emotional Learning:

Social and emotional learning (SEL) refers to the process by which children and adults acquire and effectively apply the knowledge, attitudes and skills necessary to do the following: understand and manage emotions; set and achieve positive goals; feel and show empathy for others; and make responsible decisions. ESL teachers include SEL practices in everyday learning to include the state competencies and sub-competencies. Students, through SEL, are able to take personal ownership and responsibility for their learning and decisions.

#### Thematic Approach:

"Adopted by the New Jersey State Board of Education in August 2017

ESL teachers include topics or themes in their lesson planning that incorporate the WIDA standards. Topic or theme-related language and concepts may be spiraled over a period of time, ensuring their conceptualization. Students are continually expected to communicate in all four language domains: listening, speaking, reading and writing.

#### Reader's Workshop for ELs:

Reader's workshop blends whole group instruction, small needs-based groups, and individual conferring to guide students through the application of basic reading comprehension strategies. Teachers of ELs are familiar with the reader's and writer's workshop. Although setting up a reader's workshop classroom in the ESL classroom may not be feasible, ESL teachers can adapt some of the best practices present within the workshop framework.

These strategies are as follows:

- Determining what is Important Identifying themes and diminishing focus on less important ideas or pieces of information (i.e., ten minute mini-lesson focused on one specific topic or strategy).
- Immediate Application Provide time for students to independently apply the skill of focus from the mini-lesson, at which time the ESL teacher can float among students and provide guidance as needed.
- Small Group Instruction While students work independently, the teacher can work with a small group to re-teach a skill, pre-teach something, reinforce a previous concept, or accelerate learning for students ready to move ahead.
- Immediate Targeted Feedback As students work independently or in small groups, the ESL teacher can provide praise, redirection, or feedback immediately.

Academic Vocabulary	Vocabulary for Vocabulary Strategies	Grammar
Determine Importance	Word Parts	Use adjectives before nouns
Make judgements	Prefixes	Use adjectives that compare
Interpret	Suffixes	Use possessive nouns
Draw Conclusions	Compound Words	Use past tense verbs
Plan and monitor	Multiple-Meaning Words	Use past tense verbs: Had
Explain Summarize Make comparisons		Use Commands Use irregular verbs Use irregular verbs past tense

- What Makes a community? by Janet Helenthal
- *Hercules* by Paul Storrie
- Wicked Weather by Beth Geiger

#### Core Novels from High school English curriculum

#### Grade 9

- The Odyssey by Homer supplemented with World Mythology
- *I Know Why the Caged Bird Sings* by Maya Angelou
- Things Fall Apart by Chinua Achebe
- "My Children! My Africa!" by Athol Fugard
- I Am Malala by Malala Yousafzai and Christina Lamb
- The Bluest Eye by Toni Morrison
- *Great Expectations* by Charles Dickens
- To Kill a Mockingbird by Harper Lee
- *The Miracle Worker* by William Gibson
- The Tragedy of Romeo and Juliet by William Shakespeare
- Into the Wild by Jon Krakauer
- Persopolis by Marjane Satrapi

#### Scaffolding

Year Long Standard(s): Grade 9 https://www.state.nj.us/education/modelcurriculum/ela/9.pdf			
Level 1	WIDA CAN DO'S BY MODE:		
Entering	https://wida.wisc.edu/sites/default/files/resource/CanDo-KeyUses-Gr-9-12.pdf		
	Model Curriculum Scaffold with ELA Unit 2 Grade 9 <u>https://www.state.nj.us/education/modelcurriculum/ela/ellscaffolding/910u2.pdf</u>		
Level 2 Beginning	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.		
Level 3 Developing	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.		
Level 4 Expanding	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.		
Level 5 Bridging	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.		
Level 6 Reaching	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.		

#### Assessment/Performance Tasks

Performance Tasks:	Other Evidence:
Engage in classroom discussion Understanding the speaker's message Respond to and interpret visuals Study and interpret a photo Respond to questions Describe people and places Use adjectives Acivate prior knowledge Determine importance Analyze text features Give Oral Response Use word parts Compare-Contrast paragraph Word knowledge Describe an experience	Close reading activities and notes Grammar activities Phonics assessment Vocabulary acquisition and reading comprehension Writing: Descriptive Essay Writing: Expository Essay

Benchmarks and assessments:

### Entry Criteria for the ESL Program

Eligibility for ESL program is based on the results of the following measures:

- WIDA Measure of Developing English Language (WIDA MODEL) assessments are approved by the New Jersey Department of Education and can be administered to screen students who enter the district whose first language is other than English. Students whose score falls below the competent and fluent levels will be placed in an ESL class.
- ACCESS 2.0 test results from the previous school year
- Content area teacher recommendations
- Content area performance and grades
- ESL teacher recommendations
- Participation in an ESL program in another school district
- Arrival to the United States from a country where Standard English is not the first language Monitor Criteria for the ESL Program Students who meet the criteria for exit from the ESL program are placed on a monitor status for a minimum of two years and offered support with content area classes.
- ESL teachers work with content area teachers to ensure a successful transition from the ESL program. In the event that a teacher wants to recommend re-entry into ESL, that request must be submitted to the district
- ESL supervisor for review. Re-entry into ESL can only be granted by the county superintendent.

### Exit Criteria for the ESL Program

- Students enrolled in the ESL Program will be tested annually with the ACCESS 2.0 language proficiency assessment to determine their level of English language proficiency.
- The district goal, as determined by the State, is for all students to show growth of at least one proficiency level.
- Students who score at or above 4.5 are evaluated for exit from the ESL program.
- Furthermore, the WIDA MODEL assessments are used as one criterion upon which a student's exit from the program is based.
- Other criteria are student report cards, scores on the district provided assessments, and teacher recommendation.

#### State Required Assessment

- ESL State Assessment: ACCESS- ACCESS for ELLs scores have many potential uses, from determining student placement to guiding the creation of new curricula. Test scores work best as a way to aid decision-making, in cases such as:
- Establishing when multilingual learners have attained English language proficiency according to state criteria
- Making decisions about program entry and exit
- Informing classroom instruction and assessment •
- Which domains teachers could focus on
- What the WIDA ELD Standards say about students' current proficiency levels
- How teachers can scaffold using the next level up
- Monitoring student progress by comparing current scores to previous scores

#### **District Required Assessments**

- STAR •
- IXL
- SUCCESS
- ELA benchmark

#### Interdisciplinary Connections

#### Mathematics

Numerical data such as graphs and sequential information provide an opportunity for crosscurricular study.

WIDA English Language Proficiency Standard 3- English language learners communicate information, ideas and concepts for academic success in the content area of Mathematics

#### **Social Studies**

Many of the books within the classroom collection are historical fiction novels, which provide for the opportunity of cross-curricular study.

WIDA English Language Proficiency Standard 5 – English language learners communicate information, ideas and concepts for academic success in the content area of Social Studies Social Studies NJSLS: https://www.nj.gov/education/cccs/2020/2020%20NJSLS-SS.pdf Science NJSLS: https://www.nj.gov/education/cccs/2020/NJSLS-Science.pdf

#### Science

Informational reading connected to science content will be made available to help students build background knowledge in specific units (e.g., Survival)

WIDA English Language Proficiency Standard 4 – English language learners communicate information, ideas and concepts for academic success in the content area of Science

#### English Language Arts

This curriculum is designed to supplement and work in partnership with the ELA curriculum.

WIDA English Language Proficiency Standard 2 – English language learners communicate information, ideas and concepts necessary for academic success in the content area of language arts. See link: https://www.nj.gov/education/cccs/instructionalunits/ela/

Student assignment in ESL-English classes will be based upon the number of years of high school English or ESL completed, so the English Language Proficiency levels of students in any class may vary.

The Units o	f Study are organized by theme, so the texts read within each theme can be differentiated
by reading	level.
	on in materials, assignments, and assessments can be provided (e.g., 99 Ideas and r Teaching English Learners with the SIOP Model)
Activities 10	reaching English Learners with the SIOP Model
Advanced	Gifted and Talented EL Guidance link.
Learners	https://www.state.nj.us/education/bilingual/policy/GiftedandTalentedEnglishLanguageLearners.pdf
Struggling	Tiered Systems of Support link:
Learners	https://www.state.nj.us/education/njtss/
English	This entire curriculum is designed for ELs. Also, review FABRIC
Language Learners	https://www.nj.gov/education/bilingual/pd/fabric/fabric.pdf
	English Language Learner Toolkit.
	https://ncela.ed.gov/files/english_learner_toolkit/OELA_2017_ELsToolkit_508C.pdf
	The central mentor texts chosen were based on the following criteria: Lexile. Even though some of the texts do not have a Lexile level, the teacher will read the texts aloud, and scaffold by defining vocabulary words, paraphrasing and simplifying complex sentences and using all visuals for support. They represent both literature and informational texts on the same topic aligned to the standards assessed in Unit 2
Special	ELLs with Special and diverse needs link:
Needs	https://www.state.nj.us/education/bilingual/resources/ELLSpecialNeed.htm
Learners	
Learners with an IEP	<ul> <li>Each special education student has in Individualized Educational Plan (IEP) that details the specific accommodations, modifications, services, and support needed to level the playing field. This will enable that student to access the curriculum to the greatest extent possible in the least restrictive environment. These include: <ul> <li>Variation of time: adapting the time allotted for learning, task completion, or testing</li> <li>Variation of input: adapting the way instruction is delivered</li> <li>Variation of output: adapting how a student can respond to instruction</li> <li>Variation of size: adapting the number of items the student is expected to complete</li> <li>Modifying the content, process or product</li> </ul> </li> </ul>
	Additional resources are outlined to facilitate appropriate behavior and increase student engagement. The most frequently used modifications and accommodations can be viewed <u>here</u> . Teachers are encouraged to use the Understanding by Design Learning Guidelines (UDL). These guidelines offer a set of concrete suggestions that can be applied to any discipline to ensure that all learners can access and participate in learning opportunities. The framework can be viewed here www.udlguidelines.cast.org
Learners with a 504	Refer to page four in the Parent and Educator Resource Guide to Section 504 to assist in

Career Readiness, Life Literacies, and Key Skills Rapid advancements in technology and subsequent changes in the economy have created opportunities for individuals to compete and connect on a global scale. In this increasingly diverse and complex world, the successful entrepreneur or employee must not only possess the requisite education for specific industry pathways but also employability skills necessary to collaborate with others and manage resources effectively in order to establish and maintain stability and independence. This document outlines concepts and skills necessary for New Jersey's students to thrive in an ever-changing world. Intended for integration throughout all K–12 academic and technical content areas, the New Jersey Student Learning Standards- Career Readiness, Life Literacies, and Key Skills (NJSLS-CLKS) provides the framework for students to learn the concepts, skills, and practices essential to the successful navigation of career exploration and preparation, personal finances and digital literacy.

### Mission

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

### Vision

An education in career readiness, life literacies, and key skills fosters a population that: • Continually self-reflects and seeks to improve the essential life and career practices that lead to success; • Uses effective communication and collaboration skills and resources to interact with a global society; • Possesses financial literacy and responsibility at home and in the broader community; • Plans, executes, and alters career goals in response to changing societal and economic conditions; and • Seeks to attain skill and content mastery to achieve success in a chosen career path.

<u>Review the following standards for expectations by grade 12:</u> https://www.nj.gov/education/cccs/2020/2020%20NJSLS-CLKS.pdf

Computers or iPads can be integral in providing ELs with valuable language experiences as they learn a new language. ESL teachers should offer English learners a language-rich environment in which students are constantly engaged in language activities. The computer or iPad can act as a tool to increase verbal exchanges, develop content area vocabulary and improve reading and writing skills. Students should be exposed to language learning software and websites, which may be utilized at home and in school. Interactive whiteboards can also play a major part of hands-on interactive ESL instruction. Interactive whiteboards provide students with visual support that all ESL students need. In addition, they provide a way for teachers to anonymously survey students' understanding of the material being taught.

### Technology Connections

- E-textbooks (Classlink)
- Collections (Houghton Mifflin Harcourt)
- Edge (National Geographic Cengage Learning, 2014)
- Microsoft Office, One Note, Schoology, FlipGrid and One Drive will be used to assign tasks, submit work, and provide feedback
- Microsoft Apps will be used to promote collaboration through technology
- Websites
- Online resources will be used to supplement curricular materials.
- Ted Talks will be provided when relevant to curriculum content.
- Immersive Reader will be used to help students build academic vocabulary knowledge.

# Unit 3 Title: Education and Growth- Book Club/ Writing Literary Analysis

# **Unit Description:**

This unit seeks to build understanding about the transformational potential of education, both formal and informal in America, and the strong connection learning can have on personal and moral growth. Students will learn strategies to help them read core texts that trace the development of a young person, considering the societal factors of the time period and today that influence that growth. Next, students will learn skills to develop a literary analysis with appropriate textual evidence as modeled in a mentor text. In addition, students will learn, recall, and apply new vocabulary using various activities to practice and reinforce skills and strategies. Throughout this unit, independent reading will be encouraged to allow students to build reading stamina, practice grade level skills and strategies, and develop interest and enthusiasm for reading.

# Unit Duration: 45 days (Third Marking Period)

**Desired Results**

Learning/Instructional Strategies

Using this curriculum guide as a foundation, the ESL teacher, in the role of decision maker, selects the specific method or technique best suited to reach a particular objective. The teacher uses an eclectic approach, drawing upon his or her experience and knowledge of teaching and learning while responding to the English proficiency level of each student and his/her immediate social and academic needs. ESL teachers are sensitive to the differences between what the students are taught and what the students bring to class, so lessons and teaching methods are student-centered, based on each student's individual English language needs. Instruction of ELs may include any or all of the following:

# Sheltered English Instruction (SEI):

Sheltered English Instruction (SEI) is a planning process that helps teachers provide English learners with grade-level content instruction by adapting lesson activities to the English proficiency level of individual students" (NJDOE). Through the use of SEI, English learners can be integrated into classrooms with their English-speaking peers and work toward meeting expectations outlined in the New Jersey Student Learning Standards and Next Generation Science Standards.

SEI promotes the use of clear, direct, and easy-to-understand language and a wide range of scaffolding strategies to communicate understanding of content in mathematics, science, social studies, and language arts to students. SEI activities require teachers to analyze lesson content to determine the academic language that must be taught to make content accessible for ELs. SEI methods require teachers to build background knowledge, connect new content to students' prior knowledge, provide time for interaction and collaboration among students, integrate explicit language and vocabulary instruction relevant to content learning, and emphasize the use of many types of instructional strategies including cooperative learning, differentiated instruction, and thematic study.

# Cooperative Learning:

Cooperative learning activities give students opportunities to work in groups and share their knowledge. These learning activities are characterized by three components: positive interdependence, individual accountability, and face-to-face interaction. Cooperative learning helps ELs develop social and oral language skills. It motivates ELs to learn English, which helps them become an integral part of the class community, and it has the ability to help students become more confident in social situations.

## **Differentiated Instruction:**

The ESL curriculum strives to implement differentiated instruction in order to meet the WIDA standards. Students must have access to a variety of scaffolded and leveled materials that enable them to learn the same topics being taught in the mainstream classroom. Texts, computer resources and assessments are modified as needed.

#### Social Emotional Learning:

Social and emotional learning (SEL) refers to the process by which children and adults acquire and effectively apply the knowledge, attitudes and skills necessary to do the following: understand and manage emotions; set and achieve positive goals; feel and show empathy for others; and make responsible decisions. ESL teachers include SEL practices in everyday learning to include the state competencies and sub-competencies. Students, through SEL, are able to take personal ownership and responsibility for their learning and decisions.

#### Thematic Approach:

\*Adopted by the New Jersey State Board of Education in August 2017

ESL teachers include topics or themes in their lesson planning that incorporate the WIDA standards. Topic or theme-related language and concepts may be spiraled over a period of time, ensuring their conceptualization. Students are continually expected to communicate in all four language domains: listening, speaking, reading and writing.

# Reader's Workshop for ELs:

Reader's workshop blends whole group instruction, small needs-based groups, and individual conferring to guide students through the application of basic reading comprehension strategies. Teachers of ELs are familiar with the reader's and writer's workshop. Although setting up a reader's workshop classroom in the ESL classroom may not be feasible, ESL teachers can adapt some of the best practices present within the workshop framework.

These strategies are as follows:

- Determining what is Important Identifying themes and diminishing focus on less important ideas or pieces of information (i.e., ten minute mini-lesson focused on one specific topic or strategy).
- Immediate Application Provide time for students to independently apply the skill of focus from the mini-lesson, at which time the ESL teacher can float among students and provide guidance as needed.
- Small Group Instruction While students work independently, the teacher can work with a small group to re-teach a skill, pre-teach something, reinforce a previous concept, or accelerate learning for students ready to move ahead.

Immediate Targeted Feedback – As students work independently or in small groups, the ESL teacher can provide praise, redirection, or feedback immediately.

	Grade9 https://www.state.nj.us/education/modelcurriculum/ela/ellscaffolding/910u3.pdf

Level 2 Beginning	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 3 Developing	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 4 Expanding	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 5 Bridging	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.
Level 6 Reaching	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode. Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated instruction is based on this level.

# Assessment/Performance Tasks

#### Performace Tasks: Other Evidence: Summarizing Engage in discussions Understand a speaker's message Independent Reading: annotations and iournal Respond to and interpret visuals Grammar activities Respond to questions Phonics assessment Read self selected text Vocabulary acquisition and reading Describe action Use action verbs comprehension Writing: Advice Column – Explanatory Activate prior knowledge Writina Identify text structures Give oral response to literature Analyze characters Form: Paragraph Express likes and dislikes Explore author's background

#### **Benchmark and Assessments**

# Entry Criteria for the ESL Program

Eligibility for ESL program is based on the results of the following measures:

- WIDA Measure of Developing English Language (WIDA MODEL) assessments are approved by the New Jersey Department of Education and can be administered to screen students who enter the district whose first language is other than English. Students whose score falls below the competent and fluent levels will be placed in an ESL class.
- ACCESS 2.0 test results from the previous school year
- Content area teacher recommendations
- Content area performance and grades
- ESL teacher recommendations
- Participation in an ESL program in another school district
- Arrival to the United States from a country where Standard English is not the first language Monitor Criteria for the ESL Program Students who meet the criteria for exit from the ESL program are placed on a monitor status for a minimum of two years and offered support with content area classes.
- ESL teachers work with content area teachers to ensure a successful transition from the ESL program. In the event that a teacher wants to recommend re-entry into ESL, that request must be submitted to the district
- ESL supervisor for review. Re-entry into ESL can only be granted by the county superintendent.

# Exit Criteria for the ESL Program

- Students enrolled in the ESL Program will be tested annually with the ACCESS 2.0 language proficiency assessment to determine their level of English language proficiency.
- The district goal, as determined by the State, is for all students to show growth of at least one proficiency level.
- Students who score at or above 4.5 are evaluated for exit from the ESL program.
- Furthermore, the WIDA MODEL assessments are used as one criterion upon which a student's exit from the program is based.
- Other criteria are student report cards, scores on the district provided assessments, and teacher recommendation.

#### **State Required Assessment**

- ESL State Assessment: ACCESS- ACCESS for ELLs scores have many potential uses, from determining student placement to guiding the creation of new curricula. Test scores work best as a way to aid decision-making, in cases such as:
- Establishing when multilingual learners have attained English language proficiency according to state criteria

- Making decisions about program entry and exit
- Informing classroom instruction and assessment
- Which domains teachers could focus on
- What the WIDA ELD Standards say about students' current proficiency levels
- How teachers can scaffold using the next level up
- Monitoring student progress by comparing current scores to previous scores

#### **District Required Assessments**

- STAR
- IXL
- SUCCESS
- ELA benchmark

# **Interdisciplinary Connections**

# **Mathematics**

Numerical data such as graphs and sequential information provide an opportunity for crosscurricular study.

WIDA English Language Proficiency Standard 3- English language learners communicate information, ideas and concepts for academic success in the content area of Mathematics

# **Social Studies**

Many of the books within the classroom collection are historical fiction novels, which provide for the opportunity of cross-curricular study.

WIDA English Language Proficiency Standard 5 – English language learners communicate information, ideas and concepts for academic success in the content area of Social Studies Social Studies NJSLS: <u>https://www.nj.gov/education/cccs/2020/2020%20NJSLS-SS.pdf</u> Science NJSLS: <u>https://www.nj.gov/education/cccs/2020/NJSLS-Science.pdf</u>

# <u>Science</u>

Informational reading connected to science content will be made available to help students build background knowledge in specific units (e.g., Survival)

WIDA English Language Proficiency Standard 4 – English language learners communicate information, ideas and concepts for academic success in the content area of Science

# English Language Arts

This curriculum is designed to supplement and work in partnership with the ELA curriculum. WIDA English Language Proficiency Standard 2 – English language learners communicate information, ideas and concepts necessary for academic success in the content area of language arts. See link: https://www.nj.gov/education/cccs/instructionalunits/ela/

**Unit Modifications for Special Population Students** 

	assignment in ESL-English classes will be based upon the number of years of high school r ESL completed, so the English Language Proficiency levels of students in any class may			
The Units	vary. of Study are organized by theme, so the texts read within each theme can be differentiated by reading level.			
Differer	ntiation in materials, assignments, and assessments can be provided (e.g., 99 Ideas and Activities for Teaching English Learners with the SIOP Model)			
Advanced Learners	Gifted and Talented EL Guidance link. https://www.state.nj.us/education/bilingual/policy/GiftedandTalentedEnglishLanguageLearners.pdf			
Struggling Learners	Tiered Systems of Support link:         https://www.state.nj.us/education/njtss/			
English Language Learners	This entire curriculum is designed for ELs. Also, review FABRIC <u>https://www.nj.gov/education/bilingual/pd/fabric/fabric.pdf</u>			
	English Language Learner Toolkit. <u>https://ncela.ed.gov/files/english_learner_toolkit/OELA_2017_ELsToolkit_508C.pdf</u>			
	The central mentor texts chosen were based on the following criteria: Lexile. Even though some of the texts do not have a Lexile level, the teacher will read the texts aloud, and scaffold by defining vocabulary words, paraphrasing and simplifying complex sentences and using all visuals for support. They represent both literature and informational texts on the same topic aligned to the standards assessed in Unit 3			
Special Needs Learners	ELLs with Special and diverse needs link: https://www.state.nj.us/education/bilingual/resources/ELLSpecialNeed.htm			
Learners with an IEP	<ul> <li>Each special education student has in Individualized Educational Plan (IEP) that details the specific accommodations, modifications, services, and support needed to level the playing field. This will enable that student to access the curriculum to the greatest extent possible in the least restrictive environment. These include: <ul> <li>Variation of time: adapting the time allotted for learning, task completion, or testing</li> <li>Variation of input: adapting the way instruction is delivered</li> <li>Variation of size: adapting the number of items the student is expected to complete</li> <li>Modifying the content, process or product</li> </ul> </li> </ul>			
	Additional resources are outlined to facilitate appropriate behavior and increase student engagement. The most frequently used modifications and accommodations can be viewed <u>here</u> . Teachers are encouraged to use the Understanding by Design Learning Guidelines (UDL). These guidelines offer a set of concrete suggestions that can be applied to any discipline to ensure that all learners can access and participate in learning opportunities. The framework can be viewed here www.udlguidelines.cast.org			
Learners with a 504	Refer to page four in the <u>Parent and Educator Resource Guide to Section 504</u> to assist in the development of appropriate plans.			

Career Readiness, Life Literacies, and Key Skills Rapid advancements in technology and subsequent changes in the economy have created opportunities for individuals to compete and connect on a global scale. In this increasingly diverse and complex world, the successful entrepreneur or employee must not only possess the requisite education for specific industry pathways but also employability skills necessary to collaborate with others and manage resources effectively in order to establish and maintain stability and independence. This document outlines concepts and skills necessary for New Jersey's students to thrive in an ever-changing world. Intended for integration throughout all K–12 academic and technical content areas, the New Jersey Student Learning Standards- Career Readiness, Life Literacies, and Key Skills (NJSLS-CLKS) provides the framework for students to learn the concepts, skills, and practices essential to the successful navigation of career exploration and preparation, personal finances and digital literacy.

# Mission

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

# Vision

An education in career readiness, life literacies, and key skills fosters a population that: • Continually self-reflects and seeks to improve the essential life and career practices that lead to success; • Uses effective communication and collaboration skills and resources to interact with a global society; • Possesses financial literacy and responsibility at home and in the broader community; • Plans, executes, and alters career goals in response to changing societal and economic conditions; and • Seeks to attain skill and content mastery to achieve success in a chosen career path.

# Indicators:

https://www.state.nj.us/education/aps/cccs/career/curriculum.htm

<u>Review the following standards for expectations by grade 12:</u> https://www.nj.gov/education/cccs/2020/2020%20NJSLS-CLKS.pdf

Computers or iPads can be integral in providing ELs with valuable language experiences as they learn a new language. ESL teachers should offer English learners a language-rich environment in which students are constantly engaged in language activities. The computer or iPad can act as a tool to increase verbal exchanges, develop content area vocabulary and improve reading and writing skills. Students should be exposed to language learning software and websites, which may be utilized at home and in school. Interactive whiteboards can also play a major part of hands-on interactive ESL instruction. Interactive whiteboards provide students with visual support that all ESL students need. In addition, they provide a way for teachers to anonymously survey students' understanding of the material being taught.

# Technology Connections

- E-textbooks (Classlink)
- Collections (Houghton Mifflin Harcourt)
- Edge (National Geographic Cengage Learning, 2014)
- Microsoft Office, One Note, Schoology, FlipGrid and One Drive will be used to assign tasks, submit work, and provide feedback
- Microsoft Apps will be used to promote collaboration through technology
- Websites
- Online resources will be used to supplement curricular materials.
- Ted Talks will be provided when relevant to curriculum content.
- Immersive Reader will be used to help students build academic vocabulary knowledge.

# Unit 4 Title: Harmony and Revolution-Reading Informational Texts and Writing Argumentative pieces

# **Unit Description:**

This unit seeks to explore consequences of the actions both on individuals and larger society. Students will, through core texts, experience conflict with family expectations, religious restrictions, political structures, and gender stereotypes. In order to develop the craft of argumentation, students will learn strategies for argumentative writing informed by their own investigations into these themes. In addition, students will learn, recall, and apply new vocabulary using various activities to practice and reinforce skills and strategies. Throughout this unit, independent reading will be encouraged to allow students to build reading stamina, practice grade level skills and strategies, and develop interest and enthusiasm for reading.

Unit Duration: 45 days (Fourth Marking Period)

# **Desired Results**

	What role can we personally play in using arguments
	to affect change?
	What is future tense?
	How do you control the "r"?
	What are silent consonants
	How to write an essay

#### Learning Activities:

Using this curriculum guide as a foundation, the ESL teacher, in the role of decision maker, selects the specific method or technique best suited to reach a particular objective. The teacher uses an eclectic approach, drawing upon his or her experience and knowledge of teaching and learning while responding to the English proficiency level of each student and his/her immediate social and academic needs. ESL teachers are sensitive to the differences between what the students are taught and what the students bring to class, so lessons and teaching methods are student-centered, based on each student's individual English language needs. Instruction of ELs may include any or all of the following:

#### **Sheltered English Instruction (SEI):**

Sheltered English Instruction (SEI) is a planning process that helps teachers provide English learners with grade-level content instruction by adapting lesson activities to the English proficiency level of individual students" (NJDOE). Through the use of SEI, English learners can be integrated into classrooms with their English-speaking peers and work toward meeting expectations outlined in the New Jersey Student Learning Standards and Next Generation Science Standards.

SEI promotes the use of clear, direct, and easy-to-understand language and a wide range of scaffolding strategies to communicate understanding of content in mathematics, science, social studies, and language arts to students. SEI activities require teachers to analyze lesson content to determine the academic language that must be taught to make content accessible for ELs. SEI methods require teachers to build background knowledge, connect new content to students' prior knowledge, provide time for interaction and collaboration among students, integrate explicit language and vocabulary instruction relevant to content learning, and emphasize the use of many types of instructional strategies including cooperative learning, differentiated instruction, and thematic study.

# **Cooperative Learning:**

Cooperative learning activities give students opportunities to work in groups and share their knowledge. These learning activities are characterized by three components: positive interdependence, individual accountability, and face-to-face interaction. Cooperative learning helps ELs develop social and oral language skills. It motivates ELs to learn English, which helps them become an integral part of the class community, and it has the ability to help students become more confident in social situations.

# **Differentiated Instruction:**

The ESL curriculum strives to implement differentiated instruction in order to meet the WIDA standards. Students must have access to a variety of scaffolded and leveled materials that enable them to learn the same topics being taught in the mainstream classroom. Texts, computer resources and assessments are modified as needed.

#### Social Emotional Learning:

Social and emotional learning (SEL) refers to the process by which children and adults acquire and effectively apply the knowledge, attitudes and skills necessary to do the following: understand and manage emotions; set and achieve positive goals; feel and show empathy for others; and make responsible decisions. ESL teachers include SEL practices in everyday learning to include the state competencies and sub-competencies. Students, through SEL, are able to take personal ownership and responsibility for their learning and decisions.

"Adopted by the New Jersey State Board of Education in August 2017

# Thematic Approach:

ESL teachers include topics or themes in their lesson planning that incorporate the WIDA standards. Topic or theme-related language and concepts may be spiraled over a period of time, ensuring their conceptualization. Students are continually expected to communicate in all four language domains: listening, speaking, reading and writing.

# Reader's Workshop for ELs:

Reader's workshop blends whole group instruction, small needs-based groups, and individual conferring to guide students through the application of basic reading comprehension strategies. Teachers of ELs are familiar with the reader's and writer's workshop. Although setting up a reader's workshop classroom in the ESL classroom may not be feasible, ESL teachers can adapt some of the best practices present within the workshop framework.

These strategies are as follows:

- Determining what is Important Identifying themes and diminishing focus on less important ideas or pieces of information (i.e., ten minute mini-lesson focused on one specific topic or strategy).
- Immediate Application Provide time for students to independently apply the skill of focus from the mini-lesson, at which time the ESL teacher can float among students and provide guidance as needed.
- Small Group Instruction While students work independently, the teacher can work with a small group to re-teach a skill, pre-teach something, reinforce a previous concept, or accelerate learning for students ready to move ahead.
- Immediate Targeted Feedback As students work independently or in small groups, the ESL teacher can provide praise, redirection, or feedback immediately.

Level 2	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode.
Beginning	Your ELs will be coming in at different levels. Modifications should be made based on the
	level the WIDA Model screening has indicated. Individualized instruction/differentiated
	instruction is based on this level.
Level 3	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode.
Developing	Your ELs will be coming in at different levels. Modifications should be made based on the
	level the WIDA Model screening has indicated. Individualized instruction/differentiated
	instruction is based on this level.
Level 4 Expanding	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode.
Expanding	Your ELs will be coming in at different levels. Modifications should be made based on the level the WIDA Model screening has indicated. Individualized instruction/differentiated
	instruction is based on this level.
Level 5	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode.
Bridging	Your ELs will be coming in at different levels. Modifications should be made based on the
	level the WIDA Model screening has indicated. Individualized instruction/differentiated
	instruction is based on this level.
Level 6	Use above link to show the expectations of ELs (CAN DO's) at each level for each mode.
Reaching	Your ELs will be coming in at different levels. Modifications should be made based on the
	level the WIDA Model screening has indicated. Individualized instruction/differentiated
	instruction is based on this level.

# Assessment/Performance Tasks

#### Performance Tasks:

Engage in classroom discussion Understand the speaker's message Interpret and respond to visuals Study and interpret a graph Respond to questions Read self-selected text Use context clues Express intentions Use verbs in future tense Give an oral response to literature Recognize genre: fables Express opinion Use prepositions

#### Other Evidence:

Written response to literature Grammar activities Phonics assessment Vocabulary acquisition and reading comprehension Writing: Fact and Opinion Essay

#### **Benchmarks and Assessments**

# Entry Criteria for the ESL Program

Eligibility for ESL program is based on the results of the following measures:

- WIDA Measure of Developing English Language (WIDA MODEL) assessments are approved by the New Jersey Department of Education and can be administered to screen students who enter the district whose first language is other than English. Students whose score falls below the competent and fluent levels will be placed in an ESL class.
- ACCESS 2.0 test results from the previous school year
- Content area teacher recommendations
- Content area performance and grades
- ESL teacher recommendations
- Participation in an ESL program in another school district
- Arrival to the United States from a country where Standard English is not the first language Monitor Criteria for the ESL Program Students who meet the criteria for exit from the ESL program are placed on a monitor status for a minimum of two years and offered support with content area classes.
- ESL teachers work with content area teachers to ensure a successful transition from the ESL program. In the event that a teacher wants to recommend re-entry into ESL, that request must be submitted to the district
- ESL supervisor for review. Re-entry into ESL can only be granted by the county superintendent.

# Exit Criteria for the ESL Program

- Students enrolled in the ESL Program will be tested annually with the ACCESS 2.0 language proficiency assessment to determine their level of English language proficiency.
- The district goal, as determined by the State, is for all students to show growth of at least one proficiency level.
- Students who score at or above 4.5 are evaluated for exit from the ESL program.
- Furthermore, the WIDA MODEL assessments are used as one criterion upon which a student's exit from the program is based.
- Other criteria are student report cards, scores on the district provided assessments, and teacher recommendation.

#### **State Required Assessment**

- ESL State Assessment: ACCESS- ACCESS for ELLs scores have many potential uses, from determining student placement to guiding the creation of new curricula. Test scores work best as a way to aid decision-making, in cases such as:
- Establishing when multilingual learners have attained English language proficiency according to state criteria

- Making decisions about program entry and exit
- Informing classroom instruction and assessment
- Which domains teachers could focus on
- What the WIDA ELD Standards say about students' current proficiency levels
- How teachers can scaffold using the next level up
- Monitoring student progress by comparing current scores to previous scores

# **Interdisciplinary Connections**

# **Mathematics**

Numerical data such as graphs and sequential information provide an opportunity for crosscurricular study.

WIDA English Language Proficiency Standard 3- English language learners communicate information, ideas and concepts for academic success in the content area of Mathematics

# Social Studies

Many of the books within the classroom collection are historical fiction novels, which provide for the opportunity of cross-curricular study.

WIDA English Language Proficiency Standard 5 – English language learners communicate information, ideas and concepts for academic success in the content area of Social Studies Social Studies NJSLS: <u>https://www.nj.gov/education/cccs/2020/2020%20NJSLS-SS.pdf</u> Science NJSLS: <u>https://www.nj.gov/education/cccs/2020/NJSLS-Science.pdf</u>

# <u>Science</u>

Informational reading connected to science content will be made available to help students build background knowledge in specific units (e.g., Survival)

WIDA English Language Proficiency Standard 4 – English language learners communicate information, ideas and concepts for academic success in the content area of Science

# English Language Arts

This curriculum is designed to supplement and work in partnership with the ELA curriculum. WIDA English Language Proficiency Standard 2 – English language learners communicate information, ideas and concepts necessary for academic success in the content area of language arts. See link: <u>https://www.nj.gov/education/cccs/instructionalunits/ela/</u>

**Unit Modifications for Special Population Students** 

	assignment in ESL-English classes will be based upon the number of years of high school FESL completed, so the English Language Proficiency levels of students in any class may
The Units	vary of Study are organized by theme, so the texts read within each theme can be differentiated by reading level.
	tiation in materials, assignments, and assessments can be provided (e.g., 99 Ideas and Activities for Teaching English Learners with the SIOP Model)
Advanced Learners	Gifted and Talented EL Guidance link. <u>https://www.state.nj.us/education/bilingual/policy/GiftedandTalentedEnglishLanguageLearners.pdf</u>
Struggling Learners	Tiered Systems of Support link: https://www.state.nj.us/education/njtss/
English Language Learners	This entire curriculum is designed for ELs. Also, review FABRIC <u>https://www.nj.gov/education/bilingual/pd/fabric/fabric.pdf</u>
	English Language Learner Toolkit. <u>https://ncela.ed.gov/files/english_learner_toolkit/OELA_2017_ELsToolkit_508C.pdf</u>
	The central mentor texts chosen were based on the following criteria: Lexile. Even though some of the texts do not have a Lexile level, the teacher will read the texts aloud, and scaffold by defining vocabulary words, paraphrasing and simplifying complex sentences and using all visuals for support. They represent both literature and informational texts on the same topic aligned to the standards assessed in Unit 4
Special Needs Learners	ELLs with Special and diverse needs link: https://www.state.nj.us/education/bilingual/resources/ELLSpecialNeed.htm
Learners with an IEP	<ul> <li>Each special education student has in Individualized Educational Plan (IEP) that details the specific accommodations, modifications, services, and support needed to level the playing field. This will enable that student to access the curriculum to the greatest extent possible in the least restrictive environment. These include: <ul> <li>Variation of time: adapting the time allotted for learning, task completion, or testing</li> <li>Variation of input: adapting the way instruction is delivered</li> <li>Variation of output: adapting how a student can respond to instruction</li> <li>Variation of size: adapting the number of items the student is expected to complete</li> <li>Modifying the content, process or product</li> </ul> </li> </ul>
	Additional resources are outlined to facilitate appropriate behavior and increase student engagement. The most frequently used modifications and accommodations can be viewed <u>here</u> . Teachers are encouraged to use the Understanding by Design Learning Guidelines (UDL). These guidelines offer a set of concrete suggestions that can be applied to any discipline to ensure that all learners can access and participate in learning opportunities. The framework can be viewed here <u>www.udlguidelines.cast.org</u>
Learners with a 504	Refer to page four in the <u>Parent and Educator Resource Guide to Section 504</u> to assist in the development of appropriate plans.

Career Readiness, Life Literacies, and Key Skills Rapid advancements in technology and subsequent changes in the economy have created opportunities for individuals to compete and connect on a global scale. In this increasingly diverse and complex world, the successful entrepreneur or employee must not only possess the requisite education for specific industry pathways but also employability skills necessary to collaborate with others and manage resources effectively in order to establish and maintain stability and independence. This document outlines concepts and skills necessary for New Jersey's students to thrive in an ever-changing world. Intended for integration throughout all K–12 academic and technical content areas, the New Jersey Student Learning Standards- Career Readiness, Life Literacies, and Key Skills (NJSLS-CLKS) provides the framework for students to learn the concepts, skills, and practices essential to the successful navigation of career exploration and preparation, personal finances and digital literacy.

# Mission

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

# Vision

An education in career readiness, life literacies, and key skills fosters a population that: • Continually self-reflects and seeks to improve the essential life and career practices that lead to success; • Uses effective communication and collaboration skills and resources to interact with a global society; • Possesses financial literacy and responsibility at home and in the broader community; • Plans, executes, and alters career goals in response to changing societal and economic conditions; and • Seeks to attain skill and content mastery to achieve success in a chosen career path.

# Indicators:

https://www.state.nj.us/education/aps/cccs/career/curriculum.htm

<u>Review the following standards for expectations by grade 12:</u> https://www.nj.gov/education/cccs/2020/2020%20NJSLS-CLKS.pdf

Computers or iPads can be integral in providing ELs with valuable language experiences as they learn a new language. ESL teachers should offer English learners a language-rich environment in which students are constantly engaged in language activities. The computer or iPad can act as a tool to increase verbal exchanges, develop content area vocabulary and improve reading and writing skills. Students should be exposed to language learning software and websites, which may be utilized at home and in school. Interactive whiteboards can also play a major part of hands-on interactive ESL instruction. Interactive whiteboards provide students with visual support that all ESL students need. In addition, they provide a way for teachers to anonymously survey students' understanding of the material being taught.

# Technology Connections

- E-textbooks (Classlink)
- Collections (Houghton Mifflin Harcourt)
- Edge (National Geographic Cengage Learning, 2014)
- Microsoft Office, One Note, Schoology, FlipGrid and One Drive will be used to assign tasks, submit work, and provide feedback
- Microsoft Apps will be used to promote collaboration through technology
- Websites
- Online resources will be used to supplement curricular materials.
- Ted Talks will be provided when relevant to curriculum content.
- Immersive Reader will be used to help students build academic vocabulary knowledge.

# Unit 4 – Argumentative (In the U.S.A) Newcomer Supplemental Support **Vocabulary**

5 Do you like\_ ? Yes, I like No, I do not like What do you like? l like I do not like\_\_\_\_. What is that? What are these? What are those? This is \_\_\_\_. That is \_\_\_\_. There are \_\_\_\_\_. This is \_\_\_\_. Those are \_\_\_\_.
